'SHIELD ASSURE'

LOW START ATE FOR MULTI TRACK LEGAL ACTIONS

OUTLINE

'Shield Assure' is Multi Track ATE with low start limits of indemnity.

You can apply for cover at any point in the legal action but no indemnity will apply retrospectively.

COVER

ATE cover for disbursements and opponent's costs on a failed claim at case conclusion, this to include opponent's costs and disbursements not recovered as a consequence of a failure to beat your opponent's Part 36 offer.

OPTIONS

To keep premiums low for straightforward cases, at case start you select a limit of indemnity appropriate for your client's needs at that point. This can be as low £5,000. Once the limit is reached you can increase limits of indemnity as required.

PREMIUMS

Premiums are payable on case conclusion and are bespoke. By way of example, for a £5,000 limit of indemnity, with a case valued up to £100,000, insuring at case start, premiums as low as £300 plus IPT apply.

Additional premiums apply if and when you wish to increase the limit of indemnity.

Additional cover can be provided for 'pay as incurred' disbursements.

To apply, or for more information, please call 01252 354112 or email shieldassure@keystonelegal.co.uk.
